Harold Weisberg
Route 12 Frederick Md.

Dear Mr. Weisberg,

I'm sure that you will be interested in this:
I was speaking recently to a friend who lives in St. James City, Fla. He told me of seeing a run of the Zapruder film on his local PBS station, also quite recently. He is aware of my own theorizing in relation to the assassination of President Kennedy, but he is not himself a researcher. And yet he knew enough about the matter to be quite startled to see Kennedy's head snap sharply forward just before the head shot from the front. This leads me to believe that several frames have been restored to the film.

The friend's name is Gilbert Johnson. His tele. no. is 813 624 4665, and his address is: 2762 Sanderling Lane
St. James City Fla. 33956

With best regards,

Sincerely

Russell Harrell
